

Applying New Regulations

How LEAs Deal With Changes in
Operations at a Permitted Facility

West Valley MRF & TS

- SWFP issued May 1996
- SWFP revised September 2001
 - 5,000 TPD
 - 1718 vehicle trips

The Permit included a phased approach

New Compostable Materials

Regulations adopted April 2002

- West Valley MRF & TS proposal
 - July 2002 letter of intent to process green material
 - August 26, 2002 RFI amendment application
 - September 4, 2002 LEA accepts amendment

Amendment Process

- The proposed change is consistent with existing CEQA documents
- The proposed change is acceptable and consistent with state minimum standards
- The proposed change does not conflict with the terms and conditions of the current SWFP

New CDI Regulations adopted August 2003

- West Valley MRF & TS had notified the LEA of intent to process inert materials
April 2003
- October 30, 2003 RFI amendment application
- November 6, 2003 LEA accepts amendment

Other Issues Implementing New Regulations

- Determining where a chipping and grinding facility falls in the tiers
 - CST
 - FAQ guidance on the CIWMB Website

EA Notification neverending story....

- Applicant completes the form
- Applicant doesn't want to complete the form
- Not enough information required by the regulations
- Additional information required to obtain a SWIS #

San Bernardino County Statistics

- # of Composting Facilities/Operations
- # of CDI Facilities/Operations
